

Move beyond fragmented training. Discover how the Specialty Pharmacy Training Library reduces risk, improves outcomes, and standardizes care.

## Simplify Specialty Pharmacy with Training that Delivers

### Train for Complexity. Deliver with Confidence.

Specialty pharmacy operates in a high-risk, complex environment—where variability in execution directly impacts cost, access, and patient outcomes. Clinical education alone isn't enough to ensure consistent performance across teams, sites, and workflows.

The TRC Specialty Pharmacy Training Library, included in our Pharmacist Learning & Practice Suite and the Pharmacy Technician Learning & Practice Suite, combines accredited clinical education with workflow-based operational training to enable consistent execution of complex therapies—reducing risk, improving outcomes, and accelerating workforce readiness at scale.

#### What's Included?

- Accredited specialty CE
- Job aids and clinical resources
- Assignment, tracking, and reporting tools

### What Your Team Will Gain

**Standardize Performance Across Teams & Sites.** Reduce variability across workflows and locations.

**Strengthen Compliance & Audit Readiness.** Ensure consistent documentation and training.

**Accelerate Onboarding & Reduce Delays.** Improve time-to-productivity and minimize rework.

**Improve Patient Access & Adherence.** Support better outcomes across complex therapies.

## Specialty Pharmacy Courses (ACPE-Accredited)

### WORKFLOW & OPERATIONS

Course	Accompanying Course Resources

<p><b>Compliance and Regulatory Readiness for Specialty Pharmacy</b> <i>1 credit hour</i></p> <p>Prepares specialty pharmacy teams for accreditation and regulatory readiness, including key phases, governance, audit and documentation requirements, medication safety, and continuous survey preparedness.</p>	<ul style="list-style-type: none"><li>• Incident Tracking log</li><li>• Corrective Action Plan</li><li>• Drugs With REMS Requirements chart</li></ul>
<p><b>Medication Storage, Handling, and Distribution Best Practices for Specialty Pharmacy</b> <i>1 credit hour</i></p> <p>Synthesizes DSCSA, USP storage controls, RTS safeguards, and hazardous/biohazard handling for safe, compliant specialty pharmacy distribution.</p>	<ul style="list-style-type: none"><li>• Handling Hazardous Meds FAQ</li><li>• Cancer-Associated Thrombosis FAQ</li><li>• Vaccinating Immunocompromised Patients FAQ</li><li>• Non-Pharmacologic Treatment Approaches chart</li><li>• Pharmacologic Treatments for Adverse Events chart</li></ul>
<p><b>Optimizing Patient Access, Payer Navigation, and Reimbursement Strategies for Specialty Pharmacy</b> <i>1 credit hour</i></p> <p>Reviews payer requirements, benefit investigations, and financial assistance strategies to navigate coverage barriers and improve access to specialty medications.</p>	<ul style="list-style-type: none"><li>• Facts About Biosimilars</li><li>• Guide for Helping Patients Afford Medications</li><li>• Key Terminology and Concepts</li><li>• Benefit Investigation Tool</li></ul>

## CLINICAL SPECIALTY TRAINING

These courses provide practical, workflow-based training to support specialty pharmacy teams managing advanced therapies across key disease states. Each course reviews:

- Patient selection and therapy considerations
- Product differences and administration
- Monitoring and safety protocols
- Adherence strategies
- Coordination of care across providers

Course	Accompanying Course Resources
<b>Specialty Therapies Across Pulmonary Diseases: Asthma, COPD, Pulmonary Fibrosis, and PAH</b> <i>2 credit hours</i>	<ul style="list-style-type: none"> <li>• Biologics for Asthma chart</li> <li>• Inhalation Medications for Asthma chart</li> <li>• Stepwise Treatment of Asthma algorithm (12 years and over)</li> <li>• Stepwise Treatment of Asthma algorithm (under 12 years of age)</li> <li>• Improving COPD Care algorithm</li> <li>• Inhaled Medications for COPD chart</li> <li>• Drugs With REMS Requirements chart</li> <li>• Handling Hazardous Meds FAQ</li> </ul>
<b>Specialty Therapies in Multiple Sclerosis Management</b> <i>1.5 credit hours</i>	<ul style="list-style-type: none"> <li>• Multiple Sclerosis Treatments chart</li> <li>• Vaccinating Immunocompromised Patients FAQ</li> <li>• Drugs With REMS Requirements chart</li> </ul>
<b>Specialty Therapies in Oncology: Care and Management Considerations</b> <i>2 credit hours</i>	<ul style="list-style-type: none"> <li>• Handling Hazardous Meds FAQ</li> <li>• Cancer-Associated Thrombosis FAQ</li> <li>• Vaccinating Immunocompromised Patients FAQ</li> <li>• Non-Pharmacologic Treatment Approaches chart</li> <li>• Pharmacologic Treatments for Adverse Events chart</li> </ul>
<b>Specialty Therapies Across Psoriasis and Psoriatic Arthritis</b> <i>1 credit hour</i>	<ul style="list-style-type: none"> <li>• Treatments for Plaque Psoriasis chart</li> </ul>
<b>Specialty Therapies for Rheumatoid Arthritis and Juvenile Idiopathic Arthritis</b> <i>1 credit hour</i>	<ul style="list-style-type: none"> <li>• Biologics for Rheumatoid Arthritis chart</li> <li>• Janus Kinase Adverse Effects chart</li> <li>• Vaccinating Immunocompromised Patients FAQ</li> </ul>
<b>Specialty Therapies in Migraine Management</b> <i>1 credit hour</i>	<ul style="list-style-type: none"> <li>• Migraine Prophylaxis chart</li> <li>• Drugs for Acute Migraines chart</li> </ul>
<b>Specialty Therapies for Atopic Dermatitis</b> <i>1 credit hour</i>	<ul style="list-style-type: none"> <li>• Comparison of Treatments for Eczema (Atopic Dermatitis) chart</li> </ul>
<b>Specialty Therapies Across Bleeding Disorders (including Hemophilia and von Willebrand Disease)</b> <i>1.5 credit hours</i>	<ul style="list-style-type: none"> <li>• Examples of Specialty Therapies Across Bleeding Disorders table</li> </ul>

Course	Accompanying Course Resources
<b>Specialty Therapies Across Immune-Mediated Disorders: CIDP, ITP, and Primary Immunodeficiency</b> <i>1.5 credit hours</i>	<ul style="list-style-type: none"><li>• Select Immune Globulin Products and FDA-Approved Indications table</li><li>• Select Non-Immune Globulin Specialty Therapies and Indications table</li></ul>
<b>Specialty Therapies Across Inflammatory Bowel Disease and Other Gastrointestinal Conditions</b> <i>2 credit hours</i>	<ul style="list-style-type: none"><li>• Biologics and Immunomodulators for Ulcerative Colitis chart</li><li>• Biologics and JAK Inhibitors for Moderate to Severe Crohn's Disease chart</li></ul>
<b>Specialty Therapies Across Chronic Viral Hepatitis: Hepatitis B and Hepatitis C</b> <i>2 credit hours</i>	<ul style="list-style-type: none"><li>• Hepatitis B Vaccination in Adults FAQ</li><li>• Hepatitis C Treatment Overview</li><li>• Common Side Effects Caused by HCV Antivirals and How to Manage</li></ul>
<b>Specialty Therapies Across HIV: Treatment, PEP, and PrEP</b> <i>1.5 credit hours</i>	<ul style="list-style-type: none"><li>• HIV Post-Exposure Prophylaxis (PEP) checklist</li><li>• HIV Pre-Exposure Prophylaxis (PrEP) checklist</li><li>• Comparison of Options for HIV Pre-Exposure Prophylaxis (PrEP) chart</li></ul>
<b>Specialty Therapies in Lupus Management</b> <i>1 credit hour</i>	<ul style="list-style-type: none"><li>• Drugs With REMS Requirements chart</li><li>• Handling Hazardous Meds FAQ</li><li>• Shedding Light on Questions About Sunscreens FAQ</li><li>• Vaccinating Immunocompromised Patients FAQ</li></ul>
